

2024
EVENT CATALOGUE

Welcome to the 2024 edition of the Event Catalogue, which will provide you with information about various MP-focused events, as well as knowledge and training opportunities offered by the NATO Military Police Centre of Excellence.

The NATO MP COE is a unique NATO Military Body that is dedicated to addressing all aspects of Military Police (MP) work across the full spectrum of NATO operations. With armed forces and civilian organizations heavily involved worldwide, the need to prepare efficient and effective Military Police officers and non-commissioned officers for multinational cooperation is increasingly important. Therefore, the Centre not only offers a wide range of MP-related courses and events to meet these requirements but also develops high-quality products and provides additional opportunities to enhance the knowledge of the global MP Community of Interest (CoI).

The content of this Catalogue adheres to the principles of the NATO Global Programming Approach and primarily represents the Centre's response to NATO requirements. Additionally, we have taken into account the needs expressed by the NATO and NATO Partners Military Police and Gendarmerie-type Forces (GTF) Community of Interest.

Most of the offerings in this Catalogue were identified through an in-depth process of „Training Requirement Analysis” and subsequent „Training Needs Analysis” based on the „NATO System Approach to Training.” This process was carried out by the NATO MP COE as the Department Head for the NATO Military Policing Discipline. We have established a permanent and close cooperation with the Requirement Authority, Allied Command Operations (ACO) Provost Marshal, and we receive support from the MP Col while being supervised by the Allied Command Transformation (ACT).

While the NATO MP COE primarily focuses on NATO MP and gendarmeries, our courses and events are also available for NATO Partners. We strive to develop interesting and useful products for our MP customers, continuously evaluating and improving them based on the suggestions of the MP Col. The COE meets the highest NATO quality standards and has been granted Unconditional Quality Assurance Training Facility Accreditation by NATO. Consequently, almost all courses delivered by the NATO MP COE have been certified as „NATO-Approved”. This accreditation empowers the NATO MP COE to take responsibility for maintaining and developing best practices to deliver ongoing improvements. Our staff is dedicated to upholding these high-quality standards, focusing on quality rather than quantity.

The 2024 course offerings include our well-known courses such as NATO MP Senior Officer Course, NATO MP Junior Officer Course, and NATO MP Senior Non-Commissioned Officer Course. However, this year we are adding four more events: NATO MP Junior NCO Course,

NATO MP Lessons Learned Tactical Forum, Command Senior Enlisted Leader Forum and Operational Detention Forum.

All the products provided by the NATO MP COE create additional opportunities for networking, learning, and training to enhance cooperation and knowledge within the MP Family. The NATO MP COE serves as a hub for the Military Police and is committed to providing specialized, high-quality services for the benefit of NATO, NATO Partners, and the entire MP Col.

Please note that our courses and events are regularly updated to adapt to the changing world. Our staff takes into consideration ongoing armed conflicts and draws conclusions from them to improve the capabilities of MP/GTF.

Finally, I would like to take this opportunity to invite you warmly to visit Bydgoszcz, a friendly city that welcomes all guests. Bydgoszcz is known as the NATO capital in Poland, but it can also be considered the capital of all MPs. It would be my great privilege and pleasure to meet you in person at the NATO MP COE.

COL Mirosław ŁABĘCKI
NATO MP COE Director

ABOUT THE NATO MP COE

Mission:

The NATO MP COE enhances capabilities of NATO MP, fosters interoperability and provides subject matter expertise on MP activities in accordance with the Alliance's Strategic Concept.

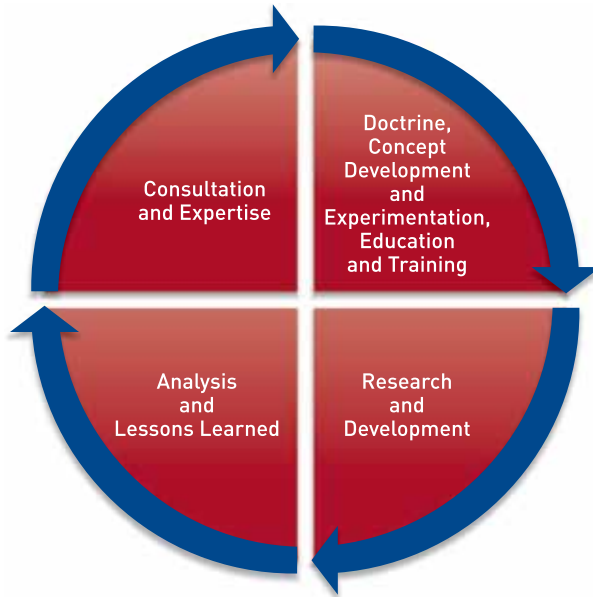

Vision:

As a Military Police (MP) think tank and the motor for innovation, we build bridges between nations, organisations and institutions for further evolution of MP standards and capabilities to support co-operation and interoperability of NATO and partners.

Scope of responsibilities:

The NATO MP COE is a multinationally-funded institution that trains and educates leaders, as well as specialists from NATO member and partner countries. It also assists in doctrine development, identifies lessons learned, improves interoperability and capabilities, as well as tests and validates concepts through experimentation. Furthermore, the Centre offers recognised expertise and experience that are of benefit to the Alliance, and it also supports transformation of NATO.

Main areas of activities:

11 December 2013 - Establishment of the NATO MP COE

28 May 2014 - Accreditation of the Centre

2 December 2015 - Department Head Appointment

24 January 2017 - Quality Assurance Accreditation

2023 - Quality Assurance Re-accreditation

Framework Nation: Poland

Sponsoring Nations: Bulgaria, Croatia, the Czech Republic,
Germany, Greece, Hungary, Italy, the Netherlands,
Romania and Slovakia

Military Policing Department Head in NATO

On 2 December 2015, the NATO MP COE was officially appointed as Department Head (DH) for Education and Training (E&T) matters within Military Policing (MPG) Discipline in NATO. “Discipline” is a NATO-approved sphere of knowledge and skills which supports existing and evolving capabilities. The list of disciplines was developed by the NATO HQ Supreme Allied Commander Transformation (SACT) to direct education and training efforts towards achieving NATO operational requirements in the respective fields.

This appointment placed the NATO MP COE as the official body responsible for „all police or police-like activities under NATO command” within the E&T pillar of NATO.

The Centre, as the DH, supports the HQ SACT's responsibility for translating NATO E&T requirements into solutions for individual and collective training. In other words, the MPG DH coordinates existing training solutions and looks for gaps in that matter, thus supports creation of the new ones offered by itself or by other national/international training institutions/facilities to NATO in order to meet NATO E&T requirements. At the same time, the NATO MP COE looks for collective training and exercise opportunities in order to ensure that MP personnel serving for NATO could exercise their skills and functions.

Moreover, among a variety of responsibilities, the NATO MP COE is accountable for conducting the MPG Annual Discipline Conference (ADC), i.e. a multinational forum of representatives from different E&T facilities providing training for MP within NATO. The aim of the ADC is to sustain the NATO E&T, and to review the adequacy of programmes for individual and collective training used to fulfil the NATO MPG E&T requirements.

NATO MP COE is the “NATO-Approved” hub for Military Police

Since its accreditation in 2014, the NATO MP COE has been making continuous progress towards becoming a trustworthy MP partner that provides valuable contributions to NATO and Partners, framework and sponsoring nations, as well as to the whole Military Police Community of Interest (Col). The Centre benefits the Alliance in its particular field by providing innovative and timely advice, subject matter expertise, specialised training and education, as well as by delivering significant contributions to the doctrine development, standardization and lessons learned processes. The most crucial milestone on that way was the “Unconditional Quality Assurance Accreditation” for six years granted by the Allied Command Transformation (ACT) in 2017. Furthermore, ACT recognised the NATO MP COE as a state of the art facility which allows provision of products and services of the highest quality in a timely and efficient manner. As a direct result of having been given the NATO Quality Assurance Unconditional Accreditation, four residential MP courses and three Advanced Distributed Learning (ADL) courses provided by the NATO MP COE have received the “NATO-Approved” certification. The Centre’s Quality Management System increases interoperability and enables flexibility to focus

on NATO directives, as well as on its transformation process, and it also ensures delivery of high quality for Education and Training of the Alliance.

Thanks to an ongoing application and improvement of practices, policies and procedures, the NATO MP COE will guarantee the guiding principle quality over quantity! But it never forgets that the mission of providing quality can only be accomplished via teamwork by doing its best, and also by improving everything on a daily basis. The NATO MP COE has once more proved to be the hub for all MP-related matters across all five MP functions. The QA accreditation, obtained with the highest possible result, demonstrates a tremendous success for the Col and also gives strong evidence of the Centre's abilities and capabilities to serve its mission as a focused and customer-oriented allied institution.

REGISTRATION TO THE SEA SYSTEM

The image shows a login interface for the SEA system. At the top, the word "SEA" is displayed in large, bold, black letters. Below it, the text "Welcome to NATO MP COE SEA" and "Smart Event Application" is shown. A message says "Log in. To see it in action." There are two input fields: "Name SURNAME" and "Password". Below these is an orange "Log In" button. At the bottom, there are links for "Forgot password?", "Do not have an account?", and "Create an account".

All event participants (students, briefers or guest speakers) must be officially registered. For this purpose, the NATO MP COE developed and implemented its own system called a Smart Event Application (SEA) which is maintained by the Centre. The SEA meets standing security requirements, thus provided data is safe and is used only for the purposes of the event organisational process.

JOINING THE EVENT OF YOUR INTEREST VIA SEA

A link to this application can be found on the NATO MP COE's website or it can be accessed directly from the web at <https://sea.mpcoe.org>. It is a very intuitive tool and it takes only a few minutes to upload the required information. Based on the former participants' reviews, we adapted the system to the needs of the COE's customers.

The image shows the registration page of the SEA system. At the top, there is a blue header with a globe icon and the text "SEA". Below the header, the text "Smart Event Application" is displayed. A message says "Register your participation in a NATO MP COE event." At the bottom, there is a button labeled "go to page".

The registration steps are as follows:

If you register for the first time, create an account at the SEA and after completing the form do not forget to click Register. Login and initial password will be provided to your email. Notice that only official emails will be accepted. Also, prepare your institution's official email address. Choose an event of your interest from the UPCOMING EVENTS menu, then click Join. Fill in a Joining Report and when it is completed and you meet all prerequisites, click Submit to send it to the Centre. If you are not ready, you can Save your report and submit it later on at all times. Be aware that the Joining Report is not visible to event custodians at a saved stage. Be precise when providing the details. A participant is considered registered for the event upon receiving a registration email with an Acceptance Message.

THE REGISTRATION DEADLINE IS ALWAYS 2 WEEKS BEFORE THE EVENT.

If a registered participant cannot attend a selected event, they have to go to the SEA again and update their info in the Joining Report by clicking Resign and giving the reason of their resignation.

In case of cancellation or non-utilisation of the allocated seat after the registration deadline, the NATO MP COE may charge an additional cost to a participant in relation to their participation in the event.

If you are not sure whether you have registered, or you have some queries, do not hesitate to ask for support, the COE is at your disposal.

NATO Military Police Senior Officer Course 2024

NATO APPROVED

NATO ETOC Code: MPG-MP-32024

ePRIME ref. No.: ACT.672.43

Aim:

This course contributes to preparing MP senior officers to perform their tasks in a complex multinational environment in relation to the 5 MP functions. The MP Senior Officer Course takes place in an exclusive setting that allows the development for a common understanding of the MP functions from various national capabilities and different cultures. It encourages creative thinking for the enhancement of effective MP operations and interoperability in all NATO Operations Themes.

Training audience:

- Experienced Military Police/Gendarmerie-type forces Senior Officers, ranks from OF-3 to OF-5, coming from NATO and NATO partner countries;
- Admittance to the course is prioritized for military personnel that are in:
 - » NATO Command Structure/NATO Force Structure (NCS/NFS) positions (appointed or to be appointed in the next 6 months);
 - » multinational positions related to NATO;

- It is expected that prospective students have relevant MP experience in their national structures and are accustomed to working with their national military doctrines;
- No specific deployment experience required;
- The course is designed for MP/Gendarmerie-type forces Senior Officers (OF-3 to OF-5). Exceptions to this will be considered based on seat availability and the following factors will be taken into account:
 - » Depending on the level of experience and exposures to NATO level operations, OF-2 and/or OF-6 may attend this course if an approved rank waiver is obtained. Please submit the request for a waiver, with justification, to the course OPR. The waiver request will be analysed and assessed;
 - » Non-MP/Gendarmerie Senior Officers within NCS/NFS/national HQs (e.g. COS, staff officers). Admittance only after approved request for waiver by the course OPR;
 - » Senior civilian police officers in the NATO deployment readiness cycle. Admittance only after approved request for waiver by the course OPR.

Learning objectives:

- Conduct planning in a NATO/multinational environment;
- Advise command and staff on MP functional area;
- Conduct coordination, synchronisation and liaison;
- Conduct command and control in a NATO/multinational environment.

Course timing and capacity:

- 24 - 28 June 2024;
- Max. 16 students.

Security:

The classification for this event is NATO Unclassified (releasable to NATO Partners).

Course fee:

PLN 650 (approx. EUR 145)

Contact:

phone: +48 261 410 019

E&T Branch email: MPCOE.ET@mp.coe.nato.int

NATO Military Police Senior Non-Commissioned Officer Course 2024

NATO APPROVED

NATO ETOC Code: MPG-MP-21783

ePRIME ref. No.: ACT.672.45

Aim:

This course is designed to impart knowledge to MP senior non-commissioned officers, enabling them to work effectively in a multinational environment, considering both national and multinational MP perspectives.

Training audience:

- Military police/gendarmerie-type forces SrNCOs from NATO and NATO partner countries, OR-6 to OR-8;
- However, because of the various levels of experience and exposures to NATO operations, OR-9 will be accepted too.

Learning objectives:

- Explain countries' individual MP capabilities within a NATO/multinational environment;
- Solve administrative and personnel issues within a NATO/multinational structure;
- Execute commander's intent in a NATO/multinational environment;
- Provide recommendations on MP employment to commanders in a NATO/multinational environment.

Course timing and capacity:

- 14 - 18 October 2024;
- min. 15 - max. 34 students.

Security:

The classification for this event is NATO Unclassified (releasable to NATO Partners).

Course fee:

PLN 600 (approx. EUR 135).

phone: +48 261 410 081

E&T Branch email: MPCOE.ET@mp.coe.nato.int

NATO Military Police Junior Officer Course 2024

NATO APPROVED

NATO ETOC Code: MPG-MP-21567

ePRIME ref. No.: ACT.672.44

Aim:

The NATO MPJOC is to provide initial knowledge focusing on NATO MP/gendarmerie international cooperation in order to develop a common understanding of the differences in capabilities and national cultures, therefore enhancing MP interoperability in NATO-led operations.

Training audience:

- Military police/gendarmerie junior officers (OF-1 and OF-2) from NATO and partner countries.
- Exceptions will be accepted based on seat availability:
 - » OR-8/9 and OF-3/4 (or civilian equivalent) assigned to MP or MP-related positions at NATO HQ or comparable positions in NATO member and partner countries;
 - » Non-MP/gendarmerie junior officers within NATO Command Structure/NATO Force Structure, and national HQs but will require substantiations;
 - » Junior civilian police officers in the deployment readiness cycle being deployed within NATO.

Learning objectives:

- Advise Command on NATO MP Doctrine;
- Mission planning in a NATO operation.

Course timing and capacity:

- 23 - 27 September 2024;
- max. 24 students.

Security:

The classification for this event is NATO Unclassified (releasable to NATO Partners).

Course fee:

PLN 600 (approx. EUR 135).

phone: +48 261 410 088

E&T Branch email: MPCOE.ET@mp.coe.nato.int

NATO Military Police Junior Non-Commissioned Officer Course 2024

PILOT COURSE

Aim:

This newly developed course contributes to preparing MP junior non-commissioned officers to work in a multinational MP environment. The emphasis is on practical exercises through which execution of MP functions is explained.

Training audience:

- Military police/gendarmerie-type forces junior non-commissioned officers from NATO and NATO partner countries, OR-1 to OR-5;

Learning objectives:

- Comprehend military/police ethics within a NATO/multinational environment;
- Explore English varieties and cultural diversities;
- Equip students with basic orientation in NATO MP operations.

Course timing and capacity:

- 18 - 22 November 2024;
- min. 15 – max. 34 students

Security:

The classification for this event is NATO Unclassified (releasable to NATO Partners).

Course fee:

PLN 600 (approx. EUR 135).

NATO Military Police Digital Evidence Collection & Handling in support of Investigations Course 2024

NATO APPROVED

NATO ETOC Code: MPG-MP-36856

ePRIME ref. No.: ACT.672.42

Aim:

This newly developed course is to prepare NATO MP Officers to collect and triage media that is gathered through proper collection of evidence from crime scenes focusing on battlefield digital forensics. The examination of the media will provide information that can be used to support the continued criminal investigations. Furthermore, the data collected from these artefacts will be transformed into information that can be ingested into the analytical phase of the intelligence cycle. The curriculum of the training is planned to be composed of both theoretical (lectures) and practical (syndicates) content. The combination of academic knowledge and real life lessons constitutes a solid educational offer for present and future first responders, analysts and other MPs who will be assigned to investigation cells.

Training audience:

- Individuals recently assigned or planned to be assigned to NATO or Partners MP Investigation Units;
- Experienced investigators without prior cybercrime practice;
- First responders with basic crime scene preservation knowledge.

Learning objectives:

- Apply the theory, concepts, principles, and procedures of the preparation phase of cyber investigations;

- Conduct physical scene search;
- Initial handling, handover and presentation of collected data.

Course timing and capacity:

- 20 - 24 May 2024;
- max. 12 students.

Security:

The classification for this event is NATO Unclassified (releasable to NATO Partners).

Course fee:

PLN 1300 (approx. EUR 300).

ADL 186 Introduction to the NATO MP Doctrine

NATO APPROVED

NATO ETOC Code: MPG-MP-24415

e-Learning course available at: jatl.act.nato.int – updated in 2019, based on AJP-3.21

Aim:

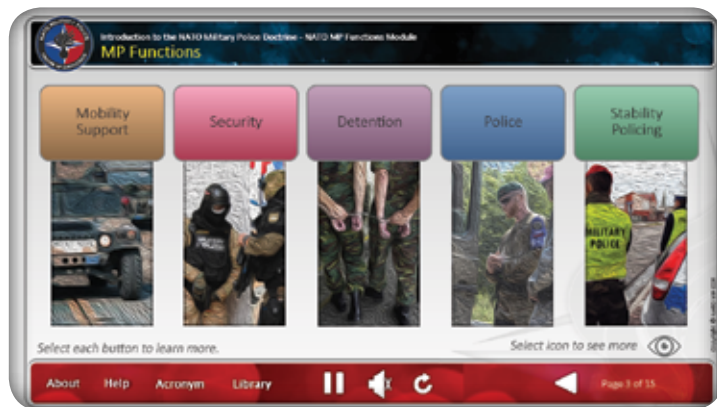

This course is to familiarize the NATO military police community, as well as other NATO civilian and military personnel, with the NATO military police role, functions, activities and tasks from the NATO doctrine and other related publications' perspective.

Training audience:

- NATO Military Police - gendarmerie-type forces military and civilian staff;
- Military police staff from nations developing their MP capacity.

Learning objectives:

- Explain the purpose of the NATO doctrine;
- Recognise the NATO Military Police-related publications;
- Identify the NATO MP role, functions and capabilities, powers and authorities;
- Identify the NATO MP role within the operational planning process;
- Describe the NATO MP combat support role in NATO operations;
- Define the role and responsibilities of the Provost Marshal.

Security:

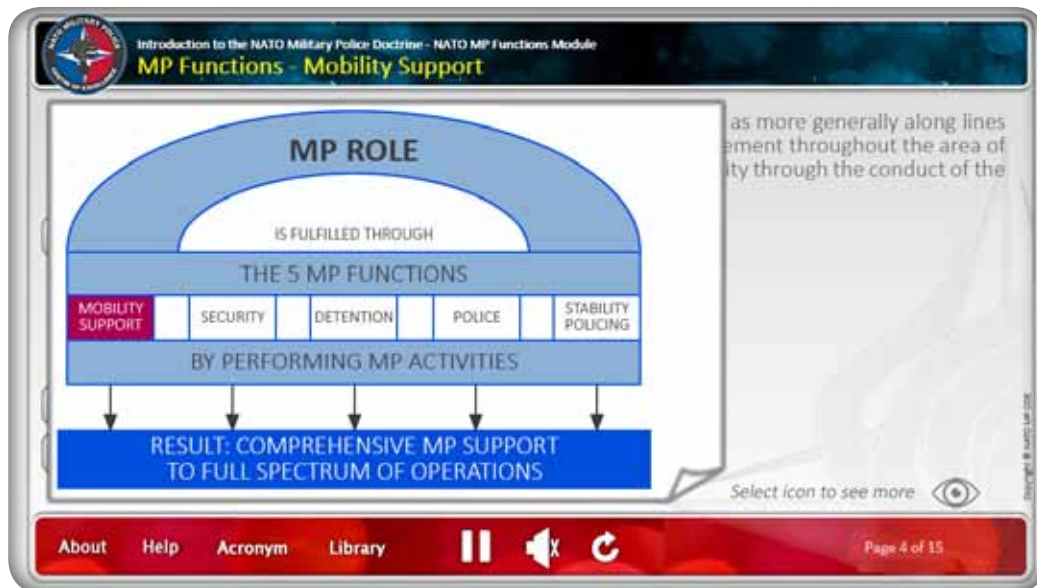

- The classification for this course is NATO Unclassified (releasable to NATO Partners);
- Registration at: www.jadl.act.nato.int is required.

Contact:

phones: +48 261 410 016, +48 261 410 083

ADL 187 Introduction to the NATO Lessons Learned Process for the Military Police Staff

NATO APPROVED

NATO ETOC Code: MPG-MP-26729

e-Learning course available at: jatl.act.nato.int

NATO APPROVED

Aim:

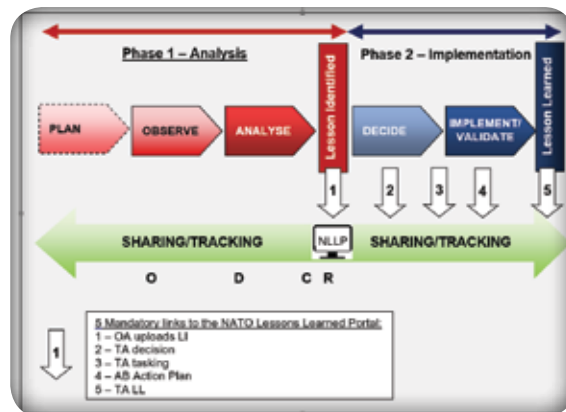

This course is to provide students with an introductory level of knowledge about the NATO MP Lessons Learned Process in order to contribute to improvement of the existing MP capabilities, as well as to train how to best integrate them in support of multinational operations within the wider context of NATO and the international community.

Training audience:

- MP LL practitioners, LL OPRs, LL POCs who have not applied the NATO LL Process yet;
- MP commanders and MP chiefs responsible for the LL capabilities within their units;
- Military and civilian MP employees;
- Civilian police officers and CIMIC employees deployed within MP advisory teams.

Learning objectives:

- Understand NATO LL process;
- Outline NATO LL organisational structure;
- Familiarise with NATO LL tools;
- Follow the Observation Discussion Conclusion Recommendation (ODCR) format while drafting observations;

- Acquaint with basic analysis techniques;
- Recognise how to validate lesson identified.

Security:

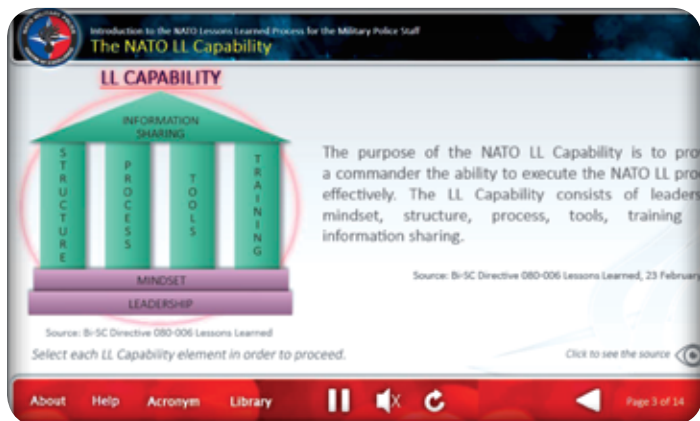

- The classification for this event is NATO Unclassified;
- Registration at a NATO e-Learning platform – JADL is required (jadr.act.nato.int).

Contact:

phones: +48 261 410 016, +48 261 410 083

ADL 188 Introduction to the NATO Military Police Mobility Support Operations

NATO APPROVED

NATO ETOC Code: MPG-MP-26703

e-Learning course available at: jatl.act.nato.int

Aim:

This course is to improve knowledge of the NATO MP personnel involved in the planning and conduct of Mobility Support Operations (MSO) in order to understand the contribution of MP as one of the crucial force multipliers for the NATO Movement and Transportation planning and execution process.

Training audience:

- NATO Command Structure/NATO Force Structure personnel;
- NATO MP staff personnel involved in the planning or execution of MSO;
- NATO MP unit commanders and their subordinates involved in the planning and/or execution of MSO.

Learning objectives:

- Employ the NATO military police doctrine in a given situation at the operational and tactical level of Mobility Support Operations during the planning and/or execution process;
- Understand the role and responsibilities of the Provost Marshal Office (PMO) staff in the Mobility Support Operations functional area for the tactical/operational level HQs;

- Define the main concepts within the NATO Movement and Transportation related joint and tactical publications;
- Describe the roles and responsibilities of the main command and coordination elements within the NATO Movement and Transportation planning and execution process;
- Describe the NATO Movement and Transportation planning, execution, control, sustainment and supporting systems.

Security:

- The classification for this course is NATO Unclassified (releasable to NATO Partners);
- Registration at www.jadl.act.nato.int is required.

ADL 194 Treatment and Handling of Captured Persons (THCP)

e-Learning course available at: jadl.act.nato.int

Aim:

The aim of this course is to educate MP personnel involved in treatment and handling of captured persons in order to understand general organization and principles of Detention Operations which has direct relation with Detention Military Police function as described in Allied Joint Doctrine for Military Police (AJP-3.21) and NATO Military Police Guidance and Procedures (ATP-3.7.2).

Training audience:

- NATO Command Structure/NATO Force Structure personnel;
- NATO MP Force staff personnel involved in the planning or execution of Detention Operations;
- NATO MP unit commanders and their subordinates involved in the planning and/or execution of Detention Operations.

Learning objectives:

- Foster guidance for planning and cooperation where Troop Contributing Nations are required to treat and handle captured persons (CPERS) in NATO operations;
- Explain key actors, roles and responsibilities in NATO Detention Operations and CPERS Handling Process.

Security:

There is no requirement for a minimum security clearance as this course is designated NATO Unclassified and releasable to Partnership for Peace (PfP), Mediterranean Dialogue (MD), Istanbul Cooperation Initiative (ICI), Partners across the Globe (PatG).

Annual Military Police Lessons Learned Conference 2024

Military Police COI Observations and Lessons from Exercises, Operations and Conflicts
MP/GTF - their role and interoperability within armed forces at the operational/tactical level exercises and in operations and conflicts
ePRIME ref. No.: ACT.672.46

Aim:

The aim of the Annual MP Lessons Learned Conference 2024 (AMPLLC-24) is to share, among the military police community of interest, lessons identified, lessons learned and best practices from recent military police contributions to and engagements in the operational/tactical level exercises, operations and conflicts in the aspect of MP interoperability within armed forces.

Open for:

Military Police Col, Stability Policing Col, NATO/national agencies and actors connected with the Law and Enforcement environment.

Objectives:

- Promulgation of continued interoperability within the MP Col;
- Introduction of LL from MP or MP-related engagements and exercise-based employments, operations and conflicts;
- Formulation of recommendations for MP procedures in their future engagements and for capabilities development based on the feedback deriving from breakout sessions.

**Event timing and location:**

- 2 - 6 December 2024;
- NATO MP COE, Bydgoszcz, Poland.

Security:

The classification for this event is NATO Unclassified (releasable to NATO Partners).

**Event fee:**

PLN 600 (approx. EUR 135).

I NATO Military Policing Annual Discipline Conference 2024

Aim:

The NATO Military Policing Annual Discipline Conference 2024 (MPGADC-24) is to annually review and update the NATO education and individual training (E&IT) requirements in the Military Policing (MPG) discipline, and to validate or revise education and training (E&T) solutions.

Open for:

- Institutions providing education, training, exercises and evaluation for NATO Military Police (MP) or gendarmerie-type forces;
- Representatives of (inter)national institutions which offer military police-related and police-related courses and exercises;
- Subject Matter Experts (SMEs) from MP and gendarmerie community of interest (Col) and representatives from national MP training providers;
- MPG discipline Requirement Authority (RA) and Headquarters Supreme Allied Commander Transformation (HQ SACT) representatives;
- Representatives of national and (inter)national organisations interested in contribution to training solutions for the NATO MP Col;
- Representatives of other NATO disciplines who see the need to cooperate with MP;
- The NATO MP COE is looking for a wide spectrum of event participants. The NATO MP COE looks for a wide spectrum of event participants.

The NATO MP COE is looking for a wide spectrum of event participants.

Objectives:

- To brief and update participants on current and important developments as well as on ongoing topics related to MPG discipline E&IT, and to discuss developments in Collective Training and Exercises;

- To strengthen functional relations among MPG discipline training institutions, HQ SACT JFD, RA and Department Head (DH), as well as to discuss options to synchronise efforts and share resources;
- To provide a forum in order to coordinate the MPG instructors/SMEs' support to MP education, training, exercises and evaluation;
- To coordinate and support processes of Quality Assurance (QA) and Accreditation in E&T institutions providing training for the NATO MPG discipline.

Event timing and location:

- 14 - 15 May 2024;
- NATO MP COE, Bydgoszcz, Poland.

Security:

The classification for this event is NATO Unclassified (releasable to NATO Partners).

Event fee:

PLN 600 (approx. EUR 135).

Provost Marshal Forum 2024-10

ePRIME ref. No.: ACT.672.40

Aim:

This event is to enhance and strengthen co-operation amongst Provost Marshals in order to exchange information, provide expertise, capture lessons learned and best practices, as well as to develop common strategies to support training, exercises and operations.

Open for:

- Provost Marshals of NATO Command and NATO Force Structures;
- Provost Marshals of partner states.

Objectives:

- Maintain the event as a working platform facilitating Provost Marshals' cooperation;
- Gather information about the latest developments in NATO;
- Convey decisions taken during the Military Police Panel and Military Police Chiefs Conference;
- Notify about the current situation regarding the role of MP in exercises and operations;
- Sharing experience of eFP BG concerning MP-related activities which will contribute to the development of Military Police best practices, lessons identified and lessons learned from various engagements;
- Inform on the progress regarding newly established NATO units.

Event timing and location:

- 18 - 22 March 2024;
- NATO MP COE, Bydgoszcz, Poland.

Security:

The classification for this event is NATO Unclassified (releasable to NATO Partners).

Event fee:

PLN 550 (approx. EUR 120).

| NATO Military Police Close Protection Forum 2024

Aim:

This forum is to share experience in the scope of close protection within a multinational environment to strengthen understanding of complex close protection considerations in NATO operations, including the necessity of cross functional and inter-institutional cooperation, as well as collaboration to foster security as a whole.

Open for:

- Military police and gendarmerie Community of Interest directly related to close protection (CP);
- SMEs and specialised branches responsible for CP;
- Education and Training institutions responsible for CP;
- Other persons responsible for CP can be accepted if they possess proper substantiations in advance (to have them before);
- No limitation on ranks but personnel currently working on/or with experience of tactical and/or operational level of operation are preferred.

Objectives:

- To provide a hub for the CP Community of Interest (Col);
- Update of the current situation and challenges of the CP Col;
- Introduction of, and discussion about the way ahead of the MP CP handbook;
- To combine theoretical and practical aspects of CP;
- Separate sessions in small syndicates for discussions about the current and new threats for close protection teams and the security classification of the forum for the future;

- Introduction to the national view of CP by the host nation based on presentations and demonstrations in order to get a common picture in NATO.

Event timing and location:

- 25 - 29 March 2024;
- Soesterberg, Utrecht province, Netherlands.

Security:

The classification for this event is NATO Unclassified, releasable to 7NNN (Non-NATO-Nations Australia, Austria, Finland, Ireland, New Zealand, Sweden, and Switzerland).

Event fee:

Detailed info on the event fee will be provided in the Invitation Letter and Administrative Instructions.

■ The NATO MP COE Lessons Learned Report Booklets

- Edition 5, September 2020

The publication includes LL-focused outcomes coming from the Annual MP LL Conference 2019, where the participants deliberated primarily about the MP involvement in handling of CPers/IDP/Refugees/Internees/POW within detention operations. MP LL Collection regarding COVID-19 pandemic has been included in the booklet, as well. Moreover, this edition have been enriched with overarching topics related to current and future NATO MP COE activities, such as MP engagement in Cyber Crime Investigation, as well as the Military Police in 2040 Workshop, which was held in January 2021.

- Edition 6, September 2021

On a yearly basis the NATO MP COE LLB released a subsequent edition of the Lesson Learned Booklet. The 6th edition of the publication among others includes:

- Newsletter from Annual LL Conference 2020;
- Newsletter on Hybrid Warfare from a webinar;
- MP in 2040 newsletter;
- 11 Webinars Initiative – an article summarizing the project;
- Article on MP COE MTT experience.

- Edition 7, September 2022

The 7th edition of the publication among others includes as follows:

- Newsletter from Annual Military Police Lessons Learned Conference 2021 (AMPLLC-21);
- Information Book Military Police Close Protection Workshop/ Forum History and Update;
- Newsletter from Crime Investigation Forum 2022;
- Information about Multinational Military Police Battalion (MNMPBAT).

■ Military Police Handbooks

Military Police Close Protection Handbook

The Military Police Close Protection Handbook is a product of the grim reality of a conflict and a regrettable but valuable lesson; it epitomises the values and ethos of the family it has been written to support. The fatal Green on Blue incident in Afghanistan at a multinational Key Leader Engagement in 2014 led to a number of high-level reviews and a request from Germany for the Military Police Panel to establish a dedicated CP Workshop.

This handbook is a first-of-its-kind document and a special gratitude is due to the UK for leading the creation, to all of the contributing nations that provided their experience and expertise via participation in workshops and the subsequent development and release of this initial version.

It is directed toward CP operational planners and Operatives of all NATO member states, but primarily as a guide to accompany Team Leaders during their CP operations. It is not dogmatic and instead intends to provide guidance and support to enable the freedom of thought required from CP Operatives to ensure continued success on CP operations. It should clarify common principles and encourage collaboration between NATO allies, by establishing common guidance and laying the foundations for increased cooperation and interoperability between commanders and teams in operational theatres around the world.

■ MP Standardized Reports Handbook

The aim of this handbook is to provide standardized reporting formats for the use of military forces in NATO joint combined operations. The reporting forms are not designed to replace national reporting systems, but rather to enhance the NATO force commander's and/or provost marshal's situational awareness.

NATO & PfP Military Police/Gendarmerie Type Forces Handbook

This handbook represents the multinational effort on the way to achieving better understanding of capabilities of other nations. It provides a unique chance to compare structures, tasks, equipment, as well as other relevant data reflecting differences, and what is even more significant similarities.
